

International Medical Center Project

“BEAM-C” - AWIK-therapy

A proposition to citizens, colleagues and partners of Russia.

Make a present of life to yourself

Give a give of life to yourself, your family and your country. Participate in a Start-up (Projects for the Planet - <http://planeta.ru/funding-rules>) – This is a Project of the Center for Preventive and functional medicine - **Treatment that includes a warranty or your money back. We guarantee on investment** http://ikar.udm.ru/files/pdf/ikar_2015_en.pdf.

Unfortunately, the efficiency of our modern society today is extremely low, and the global crisis is an example. Today there is an opportunity to live a long and healthy life, not only for oneself, but also for loved ones and for the revival of your country, base on resonance technologies http://grnt.biz/pages/our_viewpoints.html, <http://ikar.udm.ru/sb/sb4-0.htm>, <http://ikar.udm.ru/sb/sb4-3-6.htm>!

The most profitable investment - Health. "Nothing is valued so cheaply and sold as expensively as health." Much of one's life is spent earning money, and only a small part is devoted to life itself. Money is a measurement of your economic effectiveness, but not of your contribution to your community or society as a whole. (Your efficiency – Performance factor). What if you were able to make up for or buy time for a healthy life and increase your efficiency?

A well-known proverb says - the way to a man's heart lies through his stomach, but you can add — the way to the heart of people lies through their health. We are what we eat and drink, and what we refuel with.

"Health" of your favorite car, it's life - (consisting of 95% of "iron" and only 5% of "aqueous solutions") and of your Body (consisting of 95% of bound water and aqueous solutions, with only 5% consisting various elements) is primarily dependent on the quality of "fuel" - <http://ikar.udm.ru/sb/sb44-1.htm>.

The essence of our proposal

As our research has shown http://ikar.udm.ru/files/pdf/ikar_2015_en.pdf - "... Resonance is the most stable state of motion in nature. Resonant mechanisms, devices and resonance technologies have an efficiency level of 100%, and are the most optimal state in: physics, chemistry, biology and medicine. Resonance technologies are the most promising for engineering, manufacturing, for the revival of society, our biosystems".

Many years of our experience (1990-2015 years), and of our center ("BEAM-C", 1990-1995), and of our colleagues are based on highly resonant diagnostics and preventive medicine (medical treatment with guarantee):

The development of our research in Russia (40 years) and that of our colleagues abroad, has confirmed our assumptions - the main cause of diseases is due to "clogging and overgrowth" of blood vessels. Just like pipelines, but with deposits of calcium, magnesium, and micro-organisms, clogging and narrowing occurs in blood vessels. A solution has been found for both technical (<http://ikar.udm.ru/pr-14.htm>) and for living organisms (<http://ikar.udm.ru/avik.htm>, <http://ikar.udm.ru/pr.htm>, <http://ikar.udm.ru/pr-1.htm>). Evidence demonstrates that dripping activated solutions into a 2-meter pipe (at a ratio of 1: 250,000, during the course of a month) leads to self-cleaning and decontamination (<http://grnt.biz/news/21.html>). Similarly, cleaning blood vessels of living organisms also occurs in the same fashion. The immune system improves dramatically, patients come out of a coma, recover, can cure cancer, diabetes, and HIV...(<http://www.ikar.udm.ru/sb/sb38-4.htm>,<http://www.ikar.udm.ru/sb/sb17-4.htm>, <http://www.ikar.udm.ru/sb/sb43-3.htm>, <http://www.ikar.udm.ru/sb/sb46-1.htm>). At the same time, recrystallization of large crystals, at the nano level occurs (http://ikar.udm.ru/files/pdf/gr_aviik_therapy.pdf http://ikar.udm.ru/files/pdf/gr_ntech.pdf,http://ikar.udm.ru/files/pdf/gr_ikar-test.pdf, http://ikar.udm.ru/files/pdf/gr_naw.pdf). Therefore, we propose a startup for a center in Izhevsk, followed by further expansion in Russia and replication abroad.

Substantiation

Brief business plan.

1. Objectives of the center "BEAM-C" – **nothing extraneous - only what is necessary and optimal** (<http://ikar.udm.ru/sb/sb4-3-6.htm>, <http://ikar.udm.ru/sb/sb4-0-1.htm>).
 - 1.1. Diagnosis, prevention and treatment, based on an individual approach and resonant influence on fields from ions, air and water molecules their influences on the human body. (http://ikar.udm.ru/files/pdf/ikar_2015_ru.pdf).
 - 1.2. Education-training-delivery of AVIK resonant therapy and diagnostics systems in various regions, towns, cities, villages (<http://ikar.udm.ru/avik.htm>) and countries (<http://eng.ikar.udm.ru/avik.htm>).
 - 1.3. Treatment with a guarantee (<http://ikar.udm.ru/files/pdf/treatment-avik.pdf>).
2. Startup Center Economics - Joint Venture SRC "IKAR": (equipment, patents, know-how) / with investors (\$ 345.000).

- Why ownership? The answer is simple – independence. Negative previous experience of renting 1990-1995 "Jewel in the crown of Udmurtia" the building was shut down.
- 2.2. Final outfitting of the facilities, and making it consistent with standards for a medical Center, and the purchase of equipment. Staff — 2 highly qualified nurses, two doctors, one director of the center. The center is open without interruption —two days, every two days, 12 hours a day.
 - 2.3. Certification of the Center with respect to physical therapy (AVIK therapy) - diagnosis, IV, diagnosis X (<http://ikar.udm.ru/files/pdf/treatment-avik.pdf>).

The main after 1-2 years of JV "BEAM-C":

1. Education-training-delivery of AVIK resonant therapy and diagnostics systems to various regions, towns, villages (<http://ikar.udm.ru/avik.htm>) and countries (<http://eng.ikar.udm.ru/avik.htm>). Organization and establishment of regional centers of JV "BEAM-C."
2. Treatment with a guarantee, especially for complex disorders (<http://ikar.udm.ru/pr-1.htm>, http://ikar.udm.ru/files/pdf/gr_aviik_therapy.pdf).
3. Supply through a venture, to regional representatives of activated solutions, facilities, systems (drinking water with antioxidant properties, anolytes, catholytes, activated yogurts, technologies), consulting, providing out-patient care at home.
4. Participating in the development of techniques, technologies and systems for mass production.

The results from treatment, prevention and diagnosis based on resonant treatment of fields from ions, molecules of air, water and generators on the human body are impressive, recovery from coma, cancer, hepatitis, trophic ulcers, diabetes (reducing sugar from 16-24 to 3,6-4,3 after 20 years of suffering), recovery from of a number of diseases without the need for surgery, based on AVIK methods. Results of ~ 99% effectiveness was achieved in the treatment of stomach and duodenum ulcers (<http://ikar.udm.ru/sb/sb32-4.htm>, <http://www.ikar.udm.ru/sb/sb38-4.htm>, <http://www.ikar.udm.ru/sb/sb17-4.htm>, <http://www.ikar.udm.ru/sb/sb43-3.htm>, <http://www.ikar.udm.ru/sb/sb46-1.htm>).
